## Learner Hub

**Learner Hub**

# Learner Hub

## Enhance your learners' experience and drive course completion with the Learner Hub!

**How Learner Hub helps your security awareness strategy:**

Learner Hub acts as a single place for your learners to access all of their training, including historical data and completion certificates.
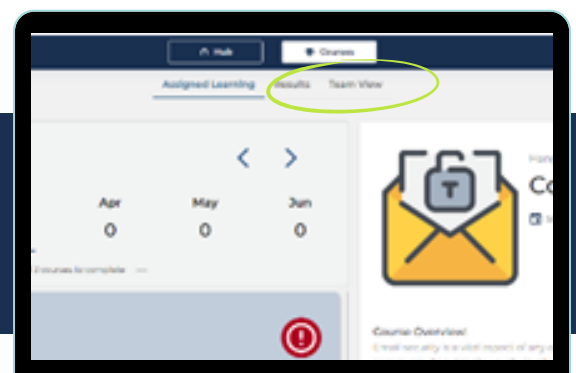

If you have direct reports, you can view and track your teams' results from the Learner Hub.

**Learners have greater control over their own learning experience, as they can:**

- Download their training certificates

- Easily access historical training results at any time

- Understand what training they have done and what is outstanding

- Access a single hub for all their training needs

**Team View** brings team leaders into the conversation by providing them access to their direct reports training results, helping to ensure that required training is completed on time.
