

STRENGTHEN YOUR CYBER RESILIENCE WITH OUR EOFY OFFER

Make the year ahead your most resilient yet

Upgrade from Premium to Elite for just **15% more on your current subscription pricing** and unlock a more complete cyber resilience platform for the year ahead.

Eligible customers can also access **50% off selected add-ons** for a limited time.

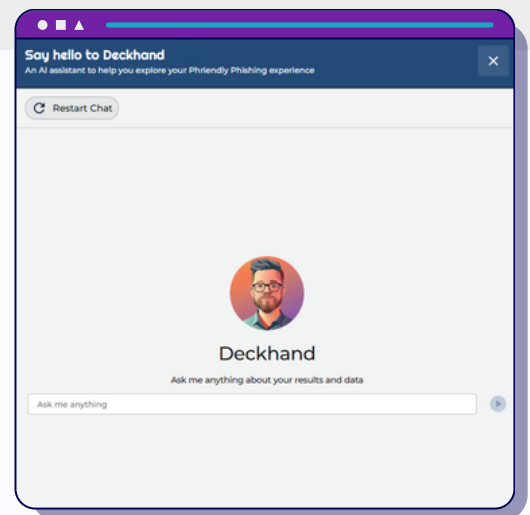

You already have a strong foundation with Premium. Upgrading to Elite gives you deeper behavioural insight, smarter reporting and AI-supported visibility to help you better understand, measure and reduce human risk.

What Elite unlocks

Deckhand Explorer:

Ask better questions. Find faster answers.

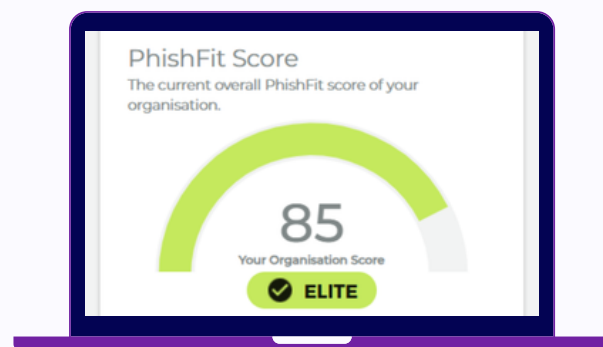

Explore phishing and training data using simple, conversational questions. Uncover trends faster and better understand what's happening across your awareness program.

PhishFit:

A clearer view of human risk and cyber resilience.

Track behaviour change over time with a dynamic resilience score that goes beyond click rates, helping you measure progress, identify risk and demonstrate program impact.

Ready to go Elite?

Strengthen your platform, unlock deeper insights and make the most of EOFY savings.

Speak to your Customer Success Manager to discuss your upgrade.

THESE SOLUTIONS. LIMITED TIME ONLY.

Phish Focus

Enhance your email security with Phish Focus, empowering your security team to tackle phishing attempts head-on. This proactive strategy conserves valuable time and resources while building your human defences' confidence in identifying phishing emails and safeguarding the organisation

Secure Care

Partner with us to elevate your security awareness training. Our expert team will work with you to develop, execute, and evaluate a customised program that:

- Aligns with your organisation's culture and objectives
- Prioritises behavior change for robust people protection
- Provides an evaluation and summary of program performance, including comprehensive reports
- Saves you time

Cyber Resilience Program

Move beyond awareness and build a cyber-resilient culture. Our Cyber Resilience Program uses insights from your Cyber Culture Survey to identify where you are today and what needs to shift. We then deliver a tailored communication and change blueprint, supported by branded, organisation-specific assets that reinforce training and drive meaningful engagement. The result is stronger behaviours, reduced human risk, and a more resilient organisation.

HR Compliance Series

Our reimagined HR Compliance Series courses turns compliance training from a dreaded tick box task into short, sharp, scenario-based training people actually want to do. The five courses blend practical behavioural learning with customisable policy integration, helping you transform culture, boost performance, and bring compliance, conduct and human risk together in one cohesive experience.

If you want to take advantage of these solution offers and find out how we can help you elevate your cyber security program and culture, please contact your Customer Success Manager before 30 June 2026. T&Cs Apply*
